

Top & Bottom Performing Sectors

This table shows the performance of funds across different sectors over the last 3 months, 1 year and 3 years to 1st September 2008. The objective is to illustrate which sectors have been doing well and which have been performing poorly. As can be seen, fixed interest funds are showing strongly with Irish Equity, Geared Irish Equity & Geared Property funds being particularly badly hit.

The figures have been extracted from the Moneymate® interactive fund analysis system.
